Rules for modification codes

Identify the 3 mid digits (=SERIES) of the serial number of your machine. Eg.: 173**102**032

Modification codes begin with:

C for a part number valid UNTIL series ...,

F for a part number valid FROM series ... UNTIL series ...,

D for a part number valid FROM series ... ONWARDS.

Example:

C092: part number valid until series 092

F093109: part number valid between series 093 and 109

D110: part number valid from series 110 onwards

If your machine has serial number 173**102**032, choose the second part number in our example since 102 is between 093 and 109.

CODE	WWHEAD -- =width

C630	--3001001 to --3630999
